## Interesting Exhibition Of John B. Stetson Hats In Show Window At Vic Hanny's Is Principal Feature Of "Stetson Week" In Phoenix

### OPERA CLUB WILL START WITH 500 NAMES ON LIST

Success of Organization Is Assured Before First Production Which Is to Be "Robin Hood," April 23-4

That the Phoenix Opera Club already is an unqualified success, even before the first opera has been produced, is evidenced by the long list of associate members of the club already enrolled.

The announcements of the intention to organize a club for the presentation of light operas in Phoenix was instantly received with the greatest interest and the promoters were given assurances of the fullest support.

These assurances have been followed with the subscribing of memberships to the club. From present indications the total membership to the Phoenix Opera club, including active and associate, will exceed 500.

With a membership of 500 of the leading citizens of Phoenix to the opera club, the musical interests of the city and vicinity have received a decided testimonial.

Seventy-Five Voices Associate members of the club will have the privilege of attending all rehearsals and other meetings as well as securing their reserved seats for the

This "Stetson Week" in Phoenix, in this city as in every other town and city in the United States every merchant who deals in Stetson hats is making a special window display and is securing extra publicity for this famous article of wearing apparel which is known the world over.

John B. Stetson has done what every other manufacturer would give almost anything he possesses to accomplish; he has made his name synonymous with the article he manufactures. Anywhere

various concerts before the regular sale to the public begins.

At the present time the active membership of the Phoenix Opera club numbers 75 voices, and it is not likely, the leaders say, that this number will be increased because the stage facilities in the local theaters will not accommodate a larger number of people. Several operas are on the list to be produced by the club this season. The first ones to be given by the new club will be "Robin Hood," Reginald De Koven's famous light opera, which will be produced on April 23 and 24, the week following Easter.

Directors and Members The associate membership of the Phoenix Opera club includes the following:

Board of directors: Governor Thomas E. Campbell, H. J. McClung, C. E. Addams, Mrs. Dwight B. Heard, Mrs. Ed Shaw, Mrs. P. A. Tharaldson, H. L. Smalley, Dr. George E. Blair, Rev. William E. Scarlett, Charles H. Akers.

Members: White and Wesley, Dr. O. H. Brown, G. B. Schuller, J. J. Sweeney, L. J. Lipschitz, W. H. Thompson, F. C. Hoepfner, F. T. Aldre, Maude Tanton, C. D. Morris, C. B. Sterling, C. P. Lee, F. B. Townsend, Henry Barwitz, A. K. Stacey, Carrie E. White, George O. Wolf, Dr. D. B. Northrup, N. S. Sanders, Mrs. G. Bird, R. C. Sauley, Warren McArthur, Mrs. C. E. Shecker, J. N. Wells, John A. Thompson, W. J. Harspool, D. A. Donofrio, Dr. A. C. Graves, W. D. O'Neill, William G. Harriman, W. B. Twitcheil, A. H. McLeelan, C. T. Mitchell, Walter Spitzer,

in this county when the name Stetson is mentioned, at once it is recognized that a hat is signified, and the best hat made.

Many people in Phoenix yesterday stopped in front of Vic Hanny's double store on Central avenue and inspected the interesting exhibit of Stetson hats displayed in every show window of the big store. Stetson hats monopolize the display space in the Hanny windows today.

It is a big and comprehensive exposition of the 1919 styles in Stetson hats,

which means the standard styles in hats for this spring. There is a picture of the great Stetson factories in Philadelphia where these standard hats are made; there are hats in all stages of manufacture, from the first process to the finished article.

But the most interesting exhibit of all is a beaver, beautifully mounted from the hide of which Stetson hats are made. This beaver was secured by Mr. Y. from the source of the state especially for this exhibition.

### FIFTH HI-Y NUMBER COMES MONDAY EVE

Appearing in the fifth number of the "Hi-Y" lecture course, Judge George D. Alden of New York comes to the high school auditorium Monday night at 8 o'clock.

Judge Alden appeared in Phoenix last year on the Chautauqua program and was so well-liked that the patrons of the "Hi-Y" lecture course urged the management to secure him if possible for the lecture course this winter.

Judge Alden has two famous lectures, "Needs of the Hour" and "The Powder and the Match," one of which he will deliver Monday evening. Few men have come to the platform so well equipped for his work. He has had varied experience in politics; in the practice of the law in Boston and New York and ten years' service upon the bench in Massachusetts.

Twenty years of diversified experience certainly ought to have qualified him to know the needs of the people and to speak sanely and sensibly upon well-being. Judge Alden has spoken in every state of the union and there is hardly a city of importance in which he has not been heard. He has come to be recognized as one of the great powers for good in the molding of public opinion and in the shaping of character.

### YUMA CONVENTION GREAT SUCCESS, SAY RETURNING WOMEN

Enthusiastic over the session of the Arizona Federation of Women's clubs of which she is president, Mrs. H. A. Guild, returned to this city yesterday from Yuma where she presided over the seventeenth annual convention.

Mrs. Guild, who has attended many conventions, declared that she has never been a delegate to a more successful gathering than that which has just closed. Her appreciation of the courtesies of the Yuma and Somerton clubwomen were evidenced by the Phoenix delegates who attended the session.

Mrs. Guild was especially pleased by the fine spirit exhibited throughout the meeting and the fact that the program was given in practically its entirety without a feature to interrupt the arrangements made weeks before the opening day, last Wednesday.

The state president stated that the presence of Mrs. Josiah Evans Cowles, president of the general federation gave an impetus to the session. Mrs. Guild introduced Mrs. Cowles who did not make a formal address, but gave rather a heart-to-heart talk along the line of organization among women to better results infusing the club spirit into remote communities and the closer co-operation between the state and general federation.

Mrs. Cowles was one of the few women in the nation who was called in close conference with the National officials in the War Council and she spoke with pride concerning the women's clubs of America when called upon to lend their aid in the work of winning the war. This same organization will be called upon again, she said, to assist in many problems that will from time to time confront the nation and upon the strength of this organization will depend woman's power in shaping affairs of state.

Among the recommendations urged by Mrs. Cowles were many wise bits of advice which she has learned through a varied and extensive career in public life.

To encourage not criticize state institutions. To assist rather than dominate legislative measures.

To hold a friendly attitude to civil service reforms.

To remember we are a part of all public affairs and have the right of citizenship in their concern.

Mrs. Cowles' talk was a great inspiration and many who had never before met the federation president will carry back to their homes the memory of a great leader, for she is one in every sense of the word, and those who have known her before realize that the past year has broadened and strengthened her remarkable character into a national personality that will carry the federation of Women's clubs forward to a prominence and power that will aid in the effort for better legislation, sanitation, citizenship and reform measures that have but one end—that of a better America.

WOMAN'S HEARING DELAYED—Mrs. M. Brown, charged with disposing of intoxicating liquor, was unable to appear in Justice D. S. Wheeler's court yesterday when her preliminary hearing was set. Mrs. Brown has had a high temperature since Monday, according to her physician, Dr. E. Payne Palmer, who informed the court that the defendant was still confined to her bed and that it would be impossible for her to appear. The preliminary was continued until 2 o'clock Saturday afternoon April 12. Officers say that they found several hundred empty whisky bottles in the rear of the East Washington street rooming house, which Mrs. Brown conducts. She is alleged to have sold a pint of whisky to a detective for \$10, accepting a marked bill for the liquor.

have signed up by Friday, April 4. All are welcome to join, but must hand their names to Secretary J. O. Sexton at the "Y" or to the committeemen of their church not later than next Friday.

ELECTION REGISTER APPEARS—The April 1, 1919, election register of the Salt River Valley Water Users' association has been completed and distributed. The register consists of 22 pages and cover, containing a list of all the members eligible to vote, and the number of shares each is entitled to vote. The list of voting places and councilors of the organization, are also contained in the booklet.

#### CARD OF THANKS

We wish to express our heartfelt appreciation for the many acts of sympathy and kindness shown and for flowers received during the illness and death of our loved one.

MRS. RICHARD ALTMAN,  
MRS. PAULINE ALTMAN AND  
FAMILY.

## P. H. S. TAKES BALL GAME FROM TEMPE

Phoenix Union High school defeated the Tempe normal school in the first game of baseball to be played this year between the valley schools. The score was 6 to 3. The playing by both teams was a little ragged in spots, but they showed promising material, and it is thought that both will develop into good nines.

The work of Moore at shortstop, Bryant in running bases, Miller at batting and Heflin's pitching were the features of the Phoenix team's game, while Wells, the normal school pitcher, showed a remarkable ability. The pitchers on both teams kept the hits well scattered.

A return game will be played in this city in two weeks.

## Truth--- In Advertising
